

GRANITE STATE CLEAN CITIES COALITION ADVISORY BOARD

DOUGLAS ALDERTON is Director of Government Sales at Premium Power Corporation, responsible for the sale of products and services to large accounts, primarily in the government demonstration, DOE/DOD grant, and utility industry. Mr. Alderton's prior work experience includes AeroVironment Inc, Azure Dynamics Corporation, Solectria Corporation (developer and supplier of electric and hybrid electric vehicle equipment and vehicle based distributed generation equipment), and the New Jersey Department of Environmental Protection and Energy. He holds a B.S. in Resource Economics from the School of Natural Resources at the University of Vermont.

MARY DOWNES is Energy Efficiency Specialist at the NH Office of Energy and Planning, providing assistance to State agencies as they work to achieve the Governor's 2005 Executive Order mandate to reduce energy use in state-owned buildings and fleets by 10%. Since early 2009, she has also been working to develop and implement State Energy Program initiatives funded by the American Recovery and Reinvestment Act, including a grant to promote alternative fueling solutions for New Hampshire. Ms. Downes previously worked in affordable housing, is a volunteer with the NH Sustainable Energy Association, and is a master's degree candidate in Resource Administration and Management at UNH.

JAY JOSEPH is Field Services Manager for PSNH, with experience in a broad range of areas in the utility industry. He is currently responsible for transportation, materials management and warehousing, rubber goods testing, meter engineering and testing, investment recovery, Dig Safe, and the Reliability Enhancement Program for PSNH. Mr. Joseph also has previous experience in information systems development, vegetation management, business planning and benchmarking. He holds a B.S. in Information Systems and an MBA from Southern NH University.

ANDREW KELLAR is the founder of Simply Green Biofuels, offering an array of Biofuels for on-road and off-road applications, as well as manufactured wood products EcoLogs and EcoPellets, and a "ConGreenience" store in Dover, NH where biofuels are available at the pump. Mr. Keller operated his first environmental business in college and eventually merged it with a larger company. He continued his business ownership by opening the first Simply Green, the largest erosion control and Hydroseeding company in the region. Recently, Simply Green Biofuels signed an MOU with Clean Power Development to co-locate a biofuel pilot plant adjacent to their proposed Biomass power plant in Berlin NH. Simply Green was recently ranked 37th in the "50 Hottest Companies in Bioenergy" by Biofuels Digest. Mr. Keller studied environmental engineering at Roger Williams University in Rhode Island.

CHRIS SKOGLUND is an Energy and Transportation Analyst for the NH Department of Environmental Services. Over the course of 2008, he served as staff coordinator for Governor Lynch's Climate Change Policy Task Force, which was charged with developing greenhouse gas reduction targets for New Hampshire, and a Climate Action Plan to achieve those goals. In addition to this work, Chris represents DES during transportation planning, working with the NH DOT and the Seacoast MPOs. Mr. Skoglund holds a B.A. in Biology from Johns Hopkins University and is a master's degree candidate in Natural Resources – Environmental Conservation at the University of New Hampshire.

MARK SOUSA is Director of Transit for the City of Nashua, NH (Nashua Transit), overseeing all operations of the City's Transit Department, including budget management. He is responsible for securing future revenues and resources, and has served as City of Nashua's Legislative Liaison, representing the City on issues in the Legislature and at committee meetings, and representing the Mayor at certain events and meetings. Mr. Sousa has served as Emergency Management Director for the City of Nashua, and has served on the Mayors Transportation Task Force, as well as NHDART and Salvation Army. He holds a B.A. in Criminal Justice and Business from the Florida Atlantic University.

SCOTT ZEPP is Eastern Regional Manager – NGV/H2 Transportation Fuels for GreenField. He is an alternative fuel industry veteran with over 20 years of design, permitting installation and equipment supply experience in CNG, LNG & LPG vehicle fueling facilities. His experience includes public & private fueling facilities for customers across the US including Sunoco, City of Los Angeles, City of San Diego, Numerous Waste Groups, Transit Agencies, etc. Mr. Zepp is a founding member of the Granite State Clean Cities Coalition and the Massachusetts Clean Cities organization, and has Bachelor and Master Degrees from Southern NH University.
